Admission and Enquiry Process

Innomatics Research Labs — RAG Knowledge Base

Starting the process

The official website provides enquiry/registration forms where prospective learners can submit name, contact number, email, course and training-mode information.

After enquiry

The website states that the team will contact applicants to guide them through next steps, including batch details, fee structure and how to get started.

Support

- Course/admission enquiries are handled through the institute's listed contacts.
- Career counselling and programme-advisor support are promoted.
- Branch phone/WhatsApp contacts are available for Hyderabad, Dilsukhnagar, Pune and Bengaluru.

RAG rule

Do not invent eligibility tests, document lists, deadlines, batch dates or payment schedules unless a current official source explicitly provides them.
