Certification Information

Innomatics Research Labs — RAG Knowledge Base

Course completion certificate

The official Terms and Conditions state that a course completion certificate is issued when the associate satisfies the stated responsibilities.

Requirements

- At least 80% attendance
- Complete assigned tasks and projects
- Participate in tests, interviews and hackathons and perform satisfactorily
- Maintain appropriate conduct

External certification pathways

The website highlights NASSCOM FutureSkills Prime and IIT-associated certification pathways for applicable programmes. Eligibility depends on the programme and stated conditions.

Data Science example

A Data Science page states that learners receive an Innomatics course-completion certificate and that eligible learners may access NASSCOM FutureSkills Prime certification and a TIH IIT Bombay Certification Program.

RAG rule

Do not claim that every programme automatically includes every external certification.
