Frequently Asked Questions

Innomatics Research Labs — RAG Knowledge Base

Data Science

• The current curriculum covers Data Analytics, Machine Learning, AI, GenAI and Agentic AI.

• No advanced technical background is stated as required on the online Data Science page.

• Current fees should be confirmed with the institute because fees vary by programme, duration, mode and offers.

Full Stack

• MERN is included.

• The course includes real-time projects.

• Classroom and live instructor-led online sessions are available.

• Internship opportunities are available for eligible learners.

General

Course duration and prerequisites vary by programme.

Unknown questions

If the knowledge base does not contain an answer, the chatbot should say it does not have reliable information rather than guessing.
